## What we do

New BeginningZ Baby Haven is a residential care facility for 30 Abandoned, Abused and Neglected Babies and Toddlers, 0 to 5 years old. These Babies come from Police Stations, Hospitals, Child Protection Organisations, Department of Social Development, NBZ Baby Savers, Children's Court and many other referring CPO's/Social Workers.

Our Baby Program includes Stimulation & Development, Special Medical & Nutritional Care, such as; substance addicted Babies, Prem, LBW, VLBW, FTT (failure to thrive), severe abuse, neglect and malnourishment (marasmus, kwashiorkor and marasmic kwashiorkor), Hydrocephaly, Microcephaly, CP, Epilepsy, PEG tubes, Tracheas etc.

We focus on Early Trauma Intervention (abuse, neglect or abandonment) to ensure optimal healthy emotional, social, psychological and cognitive development for each child. These include daily doctor/specialist appointments, therapies and specialised Intervention & Care Programs.

We also have our two Baby Walls, for a desperate mother to leave her unwanted Baby safely & anonymously as an absolute last resort, instead of throwing them in dustbins, drain pipes, street parks, taxi ranks, flushing them down public toilets or leaving them to die alone in a veld. Our Baby Savers (Baby Walls) are monitored 24/7 to ensure safe relinquishment of Babies.

## Objectives

- To work in the Best Interest of all children between the ages 0-18yrs in need of Care and Protection. Provide a Loving, stable, nurturing home environment to all children in the care of NBZ Baby Haven.
- Introduce, screen & support the best possible Permanency Planning options for our children through well established and accredited CPO's and registered Service Providers.
- Provision of basic services such as Health Care, Counselling, Emotional and Physical Therapy relating to the emotional and physical trauma our children suffer before placement with us.
- Provision of Specialized Services. Stabilization, Rehabilitation and Reintegration (if and where possible).
